Strength in Early Dealings Was Helped by Higher Range of Prices in London, Where Feeling is Greatly Improved Over Eastern Affair

(By Associated Press.)

NEW YORK, Oct. 14.—Attempts on the part of professional traders, to advance stock prices to-day were disturbed by the development of a number of weak points, in very much the same manier as yesterday. The advances which were achieved were in consequence generally wiped out, and the last prices were below last highty as a rule. The strength in the early dealings was helped by the higher range of prices in London where the financial community felt great encouragement over the prospect of averting hostilities between Mussia and Japan.

The stock market situation at Pittsburg was much improved to-day, and recovered values of Crueblo Steel preferred went far to repairing the damage done by gesterday's panicky break. The responsive pressure upon United States Steel preferred which broke that stock in yesterday's market, was relieved in consequence. The official denial of some of the rumors regarding some of the invested of the state of the rumors and prompted to some recovery. The weakness of the American Smelting stocks seemed to be associated with that of Amaigamated. The violent break in American Car stocks toward the close of the session also had an unsettling erect. The common felt 3-8 and the preferred 4-1-2. The premium commission in these stocks indicated an over-extended short account, and the covering by the large to the sample of the market. No news regarding the rowing to this supporting influence of the market. No news regarding the property was known. NEW YORK, Oct. 14.—The cotton market opened steady at an advance of 2 points to a decline of 2 points, the gains being due to the high cables and reports of a better demand from spinning interests abroad, while the declines were under realizing as a result of better weather than expected. No frosts were reported, and while temperatures in porthers sections of the best were still rather low for the best development of cotton, the forecast called for

For a lima the market raind very quiet, showing little change from the opening prices, showing little change from the opening prices, showing little change from the opening prices, and private reports being received from the footh telling of firmer spot markets, an advancing tendency soon became apparent and trading turned more active. There was considerable covering by recent sellers on the advance, and it seemed to be a better demand from outside sources, attracted by the predictions of a better demand for consumption and encouraged by the more peaceful aspect of the far Eastern troubles.

by the more peaceful aspect of the far Eastern troubles.

The market after reaching a level net 104112 points higher on the active months was eased off by realisting however, the profits afforded the room longe by the advances of the day in connection with those of resterday proving attractive, while there was also some selling on the reaction theory. The market was finally estimated at 5,500 below.

Port receipts for the day reached 42,850 bales against 37,585 bales last year, and the estimates for to-morrow's sales at leading points were light. Export reached about 10,000 bales making the total for the season some 570,000 bales against 307,500 last year. The Southern spot markets were generally firm to unchanged and 3410-6, higher, and the New York spot market was advanced 10 points.

FITZ FAILED TO STOP THE ITALIAN

GBv Associated Press.)

PHILADELPHIA, PA., Oct. 14.—Bob Fitzsimmons falled to stop Joe Grim, the Italian puglists of this city, in six rounds at the Southern Athletic Club to-night. Grim was down twenty times all told, including one accidental fall, one slip out of the ring and some half a dozen falls to avoid punishment. The others were sure knock-downs and it must be said to Grim's credit that' very few other boxers could have taken these blows and shown so little effect from them. When the men faced each other, the disparity in size was marked. Fitzsimmons towered a head above the Italian and while not in the best condition, he looked every inch the fighter. While Grim is not clever he bis a shiftiness that has folled all the big men he has met, including Peter Maher, Joe, Walcott and Kid Carter. Fitzsimmons coutended himself with chasing Grim around the ring with strong feints with now and then a fight blow. In the fourth round he began to warm up to his work and in the fifth and sixth rounds Bob apparently did the best he could and yet failed to stop the Philadelphia boy. Grim adopted evasive tactics from the rst and merely tried to stay the required number of rounds. He does not know how to hit. Grim was down twee in the second round, once in the third (an accidental fail) three-times in the fourth, six times in the fifth, and eight times in the sixth round.

CHICAGO, ILL., Oct. 14 .- 'Give to our ople something that will concentrate heir common affection and solicitous care, and let that be their country's good; give them a purpose that stimuates them to unite in lofty endeavor, nd let that purpose be demonstration f the efficiency and beneficence of our

popular rule." This was the solution offered by former President Grover Clevoland as a romedy for corrupt politics in a speech before the members of the Commercial Club at their annual banauet, given at the Auditorium Hotel to-night. The subject discussed by Mr. Clevoland was "American Good Citizenship." and he dwelt at length on the necessity of every citizen doing his part to make political action what it should be.

This is the first time in eight years that Mr. Clevoland has visited Chicago, and he roceived an enthusiatic reception by the two hundred banquetiers when he appeared at the speaker's stand.

Mr. Cleveland said:

I am by no means unmindful of the extent to which the American people are in a certain sense governed by parties, and I am quite willing to confess a strong party allegiance. I speak tonight of something broader and lottler than party—of a higher law under whose sanction all parties should exist and by whose decrees all parties should be judged. I would have the mans of our yoters so constantly impressed by this law, and so insistent upon its observance as to force upon the managers of party organizations the necessity and expediency of its recognition. Within the limits of this law of particular merican good citizenship there is abundant from for intelligent party activity; but this activity must be clean and uncorrupted, sincere in its intentions, frank in the declaration of its purposes, and honest in the affairs of the people.

It is as clear as noonday that if the partiotism of our people is to be aggressively vigorous and equal to our national preservation, and if politics is to subserve n high purpose, instead of degenerating to the level of a cunning game, our good men in every walk of life must arouse themselves to consciousness that the safety and best interests of their country involve every other interest, and that by service in the field of good citizenship they not only do partiotic must, in their hard struggles for accumulation, will remember these things and admit their c

Russia's Army in Far East

Reviewed by Viceroy.

PORT ARTHUR, TUESDAY, Oct. 13.— The review by the viceroy, Admiral Alexieff, on Sunday, of 76,009 soldiers, participating in the manoeuvres was the final act of last week's "war game." This force, the greatest Russia has ever concenerated in the Far East, was massed on the plains outside this city. It included

on the plains outside this city. It included infantry, cavairy had artilliery. Every infantry regiment is partly mounted, in accordance with the recent regulations. Foreigners were given every opportunity to witness the display, and the statements of officers regarding the total force were verified by count of the wisting experts. It was also officially announced that the entire force within easy operating distance of Port Arthur numbers one hundred thousand men. Two months ago it was sixty thousand men. Sunday's spectacle demonstrated that the reports regarding the reinforcements arriving in Manchuria had underestimated the real increase.
